OBJECTIVE

- To secure an entry-level software developer position that will allow me to utilize my programming skills and knowledge, while providing me with opportunities to learn and grow as a professional, contributing effectively to innovative and impactful projects within a collaborative team environment.

EXPERIENCE

- Oasis Infobyte(Frontend Web Development).**

Collaborated with a team of developers to build dynamic and user-friendly web interfaces using HTML, CSS, and JavaScript. Completed assigned tasks within deadlines, demonstrating strong time management and organizational skills.

PROJECT

- FARMOLOGY**

Created a farmer-friendly platform in Gujarati, providing important farming advice on crops, watering, raising animals, eco-tips, whether and government assistance, to help Gujarat farmers make smart choices.

(currently working on it).

- PORTFOLIO**

I have independently crafted a personal portfolio website using HTML, CSS, and JavaScript. While I'm new to the field, this project showcases my dedication to learning front-end development and my ability to create visually appealing and user-friendly web experiences.

SKILLS

TECHNICAL SKILLS : Java , MySQL , HTML5 , CSS3 , JavaScript.

SOFT SKILLS : Leadership , Team Work , Group Discussion , Adaptability.
